

Specialist short-cycle leasing for the UK bodyshop network

Courtesy cars are the lifeblood of any successful bodyshop and accident repair centre. Having a courtesy car available for a customer can mean the difference between securing a new job or losing valuable business.

For bodyshop customers, a courtesy car is more than just a stand-in vehicle. Having a safe and practical vehicle to drive away gives people added peace of mind and stability at a time that can be highly stressful.

Quick turnaround

Due to the nature of short-cycle leasing, we have to be quick to react. Offering speedy advice and support is just one part of what we do – our dedicated team is always there to take your call and answer any queries.

Being able to deliver cars with a short lead is another. Due to our excellent connections and relationships with trusted suppliers we are able to deliver cars to customers, subject to vehicle model, within 48 hours.

We don't just offer short-cycle contracts either. With a range of terms available, from 12-36 months, you can choose a plan that suits you.

Choosing the right type of courtesy car

We offer a range of competitively priced vehicles to cater to the company car market and we specialise in vehicles that keep your policy holders happy. For example vehicles with:

- Five doors
- Air conditioning
- Three rear seatbelts
- Automatic

Bespoke quotations

With corporate contract hire also available, you can deal direct with your current account manager for additional company vehicle support including longer leasing packages, maintenance and fleet management services.
